

*Vineyard Print, Design and Sign, LLC is family owned and operated by Greg & Tina Vineyard. The business began in 1991 when Tina freelanced as a graphic artist and was a printing and graphics instructor at a local college. We bought a very small printing press and set up shop in the basement of our Northern Kentucky home. Greg had always been in sales and managerial positions throughout his life. In the early 1990's Greg helped out a friend who had a sign shop in the Greater Cincinnati area and that is where his sign experience began. We finally put our experiences and talent together to form our company... Vineyard Print, Design and Sign, LLC. We offer a wide variety of services including all types of printing, graphic design and signs. We take great pride in our jobs and our talents. We are very proud of what we have built and the relationships we have formed along the way.*
